**ENHANCING YOUR ENJOYMENT OF THE
WATER**

NEWSLETTER

September 2021

THANKS TO ALL OUR CUSTOMERS FOR A GREAT 2021 SEASON!

This year we made some major improvements to enhance your boating enjoyment.

- We added a 4th boat to our rental fleet which is now 3 pontoon boats and a fishing boat.
- We expanded our line of outboards sales which now includes both Honda and Suzuki and will be able to service Yamaha and Mercury as well.
- We secured our space for winter storage at Treman and another off-site location.
- And the biggest news: We are in discussions with Krenzer Marine to bring a branch of their sales operations to Ithaca from Sodus Bay. Krenzer is the largest dealer of Chaparral and Robalo boats in the region.

We are also excited about the prospect of development across the street on Inlet Island which will bring increased interest in boating to the area, but this will impact our operations and require us to make some changes.

Over the 2022-23 season, we will remain fully capable of hauling, launching and servicing all boats for our customers, but storage on Inlet Island will be limited.

- Storage of big boats greater than 32' will become especially limited.
- All off-season equipment including cradles in the summer and boats not launched will be off site.
- The biggest change will be that when your boat is hauled we will schedule your spring launch week.

The prospect of the new development may bring the opportunity for some exciting improvements to our facility. Standby for more news on this as that project takes shape.

Thank you again for your patronage and loyalty. We look forward to serving you for years to come and we are proud to be your full-service boating center.

THE FLBC TEAM
