## SPECIAL NOTICE TO BOATHOUSE CUSTOMERS FOR WINTER '19-'20 STORAGE

Due to a lack of dredging, the late closure of Treman and consistently early lowering of the lake by Canal Corp., we have to take certain steps to be able to haul all of our customers' boats before they become stuck in the mud. SO:

- For Year 'round Boathouse customers; If you know you're done boating before October 10<sup>th</sup>, schedule haul for before then and pay by check for your haul by October 1<sup>st</sup> and receive a 13% discount.
- If you are a "Summer Only" Boathouse customer, you will need to have scheduled your haul out with us or otherwise be able to move your boat out of the boathouse by October 15<sup>th</sup>. That is the contractual end of the season and we will have to enforce that this year. We do not have other slips for you to go to and we will have to charge a \$25 daily charge for having to move your boat.
- For "Winter Only" and all other customers not hauled before 10/15, you will need to have your boat available to be hauled starting on October 15<sup>th</sup> to go into your assigned slip. If we have to pass over your empty slip, we may fill it with a different boat and there is no guarantee then that we can haul you in the boathouse. There will be an extra time charge for bringing the crane back if we are even able to come back to haul your boat depending on water levels.
- If you have winter work, identify and consult with us before scheduling your haul. We will not be able to do winter work between 4/15/20 and 7/3/20.

Yes, this is a scheduling nightmare but we can't be dragging boats through the mud and trying to haul them in mid-November,
